Avenues

Dear Hiring Manager,

I am writing to express my strong interest in the Math Teacher position at Avenues Online. With a robust background in statistics, data analytics, and mathematics, coupled with my experience in teaching and mentoring students, I am excited about the opportunity to contribute to Avenues Online's mission of fostering deep and innovative learning experiences for students across the globe.

As a Course Assistant for STAT107 at the University of Illinois Urbana-Champaign, I facilitated learning for over 1000 students, assisting them in grasping fundamental data science concepts and conducting interactive sessions to enhance their understanding. My role involved collaborating with a diverse team of staff and professors, managing learning platform modifications, and ensuring a seamless learning experience for students. This experience honed my communication skills and deepened my commitment to creating an inclusive and engaging learning environment.

Furthermore, my previous experience as a Teacher at Nanum School in Nicaragua provided me with firsthand experience in teaching math and English to a group of children aged 5-12 in an impoverished sector. I organized fun activities, provided individualized support, and fostered a sense of belonging among the students, emphasizing the importance of education and community engagement.

In addition to my teaching experiences, I am pursuing a Math minor at the University of Illinois Urbana-Champaign. This coursework has provided me with a solid foundation in mathematical principles which I am eager to apply in a virtual classroom setting.

I am particularly drawn to the problem-based mathematics pedagogy embraced by Avenues Online, which encourages students to master mathematical concepts gradually through hands-on learning and collaborative inquiry. I am excited about the prospect of leading one-on-one tutoring sessions, facilitating collaborative lab sessions, and co-constructing an environment that upholds the values of welcome, safety, and respect.

In addition to my technical skills, I am deeply committed to creating a culture of equity and inclusion, where every student feels valued and empowered to succeed. I am confident that my passion for teaching, coupled with my analytical expertise and dedication to student success, make me a strong fit for the Math Teacher position at Avenues Online.

Thank you for considering my application. I am eager to bring my skills and enthusiasm to the Avenues Online community and contribute to its mission of transforming online education. I look forward to the opportunity to discuss how my experiences align with the needs of your team further.

Sincerely,

Sangjun Ko
