Logical Paradigm LLC
Herndon, VA

Dear Hiring Manager,

I am excited to apply for the Business Analyst internship position at Logical Paradigm LLC. With my background in Statistics and minors in Mathematics and Data Science from the University of Illinois at Urbana-Champaign, I am eager to bring my analytical mindset and problem-solving abilities to your team. I thrive in dynamic environments where I can bridge the gap between business needs and technical solutions, and I believe this opportunity aligns perfectly with my skills and aspirations.

During my time as a consultant at Illinois Business Consulting, I collaborated with cross-functional teams to gather business requirements, analyze market trends, and provide actionable insights to clients across industries such as finance and healthcare. One of the most rewarding projects I worked on involved optimizing an operational workflow for a mid-sized logistics company. By conducting stakeholder interviews, developing detailed process flow diagrams, and utilizing Excel for data modeling, our team identified key bottlenecks that led to a 15

In my role as an AI/ML Intern Team Leader, I led a team of five in developing machine learning models to support decision-making processes using Python and statistical techniques. A critical part of this role involved translating complex technical findings into meaningful reports and presentations for stakeholders, which required strong communication skills and the ability to simplify technical jargon. Additionally, I utilized tools such as Microsoft Excel and Power BI to create dashboards that provided clear insights into key performance indicators, an experience that has prepared me well for the documentation and process flow development tasks required in this position.

I am particularly drawn to Logical Paradigm's emphasis on delivering strategic solutions across various industries. I am confident that my passion for data-driven decision-making, combined with my experience in requirement gathering, user interface prototyping, and project coordination, make me a strong candidate for this role.

I would love the opportunity to further discuss how my background and skills align with your needs. Thank you for your time and consideration. I look forward to the possibility of contributing to your team.

Sincerely,

Sangjun Ko
