Agatha Mabiza
Sr. Associate - Hiring and Recruitment
Logical Paradigm LLC
150 Elden Street, Suite 245
Herndon, VA 20170

Dear Ms. Mabiza,

I am excited to apply for the Entry Level Business Analyst position at Logical Paradigm LLC. As a senior majoring in statistics with a minor in mathematics at the University of Illinois Urbana-Champaign, I have developed strong analytical, problem-solving, and data visualization skills that align well with this role. I am eager to apply my expertise in data-driven decision-making, process optimization, and business intelligence to support Logical Paradigm's clients.

My experience in business and data analysis includes working extensively with Microsoft Excel, SQL, and Python to analyze operational data and create actionable insights. As an AI/ML intern team leader, I have conducted data modeling, built predictive analytics frameworks, and collaborated with cross-functional teams to improve efficiency. Additionally, my consulting experience with Illinois Business Consulting has strengthened my ability to gather and document business requirements, develop process flow models, and communicate findings effectively to stakeholders.

Beyond academics, I placed third in the 2024 COVID Information Commons Student Paper Challenge, where I applied statistical and geospatial analysis to assess the socioeconomic and mental health impacts of COVID-19. This research further enhanced my ability to analyze complex datasets and develop data-driven solutions to real-world problems.

I am particularly excited about this opportunity because of Logical Paradigm's commitment to leveraging technology and analytics to solve business challenges. I welcome the opportunity to contribute my analytical expertise and problem-solving mindset to your team. Thank you for your time and consideration, and I look forward to the possibility of joining Logical Paradigm LLC.

Sincerely,

Sangjun Ko
