Hiring Manager  
The Career Center  
715 S Wright St  
Champaign, IL 61820

Dear Hiring Manager,

I am excited to apply for the Summer 2025 Undergraduate Internship at The Career Center. As a Statistics major minoring in Mathematics at the University of Illinois, and an international student from South Korea and Nicaragua, I bring a diverse background, a strong commitment to student success, and a genuine passion for peer advising and career development. This opportunity aligns closely with my personal values and professional goals, and I am eager to contribute to the Center's mission while growing as a student leader.

My experiences as a Course Assistant for both STAT107 (Data Science Discovery) and STAT443 (Professional Statistics) have prepared me well for this role. I've worked one-on-one with students to break down complex concepts, given detailed feedback on professional materials, and supported peers in preparing consulting presentations. I've also served as a client in mock projects—posing real-world challenges to students and offering guidance as they developed solutions. These roles have sharpened my communication, mentorship, and problem-solving skills in academic and pre-professional contexts.

Outside the classroom, I've led a team of interns on an AI/ML project with the College of LAS, and I've served as a translator for over 2,000 U.S. and Korean soldiers during my military service. These experiences taught me how to lead with empathy, work across cultures, and communicate clearly under pressure. Whether presenting to a room of students or providing one-on-one advising, I am confident in my ability to create a supportive and inclusive space for all.

I am enthusiastic about contributing to the Center's work through resume reviews, drop-in advising, and presenting resources to new students. Thank you for considering my application—I would be honored to support other students the way others have supported me.

Sincerely,

Sangjun Ko
