1021 Creative  
United States

Dear Hiring Manager,

I am excited to apply for the Music Data Analyst (Spanish) position at 1021 Creative. With my fluency in Spanish and English, strong background in data analysis, and deep passion for music, I am eager to contribute my skills to tracking and organizing Spanish-language music content while ensuring high-quality data management.

As a Statistics major at the University of Illinois at Urbana-Champaign, with minors in Mathematics and Data Science, I have developed strong analytical and research skills that align well with this role. My experience working with large datasets, cataloging information, and ensuring data accuracy has prepared me to handle music content with precision and efficiency. Additionally, my coursework in statistical modeling and data management has strengthened my ability to organize and analyze data in structured environments.

Beyond academics, my role as an AI/ML Intern Team Leader has given me hands-on experience with data organization, quality control, and reporting. I have worked extensively with Excel, Python, and SQL to process and interpret data for decision-making purposes. In this position, I also led a team in developing machine learning models, which required meticulous data cataloging and quality assurance—skills that are essential for maintaining accurate music metadata.

Music has always been a significant part of my life, and I am particularly excited about the opportunity to work directly with Spanish-language music content. My multicultural background, having grown up in Nicaragua and South Korea, gives me a unique perspective on Latin music and its influence across different cultures. I am confident that my ability to curate and analyze Spanish-language music data with accuracy and cultural sensitivity will be a valuable asset to your team.

I would love the opportunity to discuss how my background and skills align with the responsibilities of this role. Thank you for your time and consideration—I look forward to the possibility of contributing to 1021 Creative's mission.

Sincerely,

Sangjun Ko
